Using RoboHelp (2017 release)

A

A check mark appears next to the code entry when the code is applied. Acrobat will apply redactions and create a new file with "Redacted" appended to the file name, with all marked content covered by black boxes. If you don't want to overwrite the original file, save the file with a different name, at a different location, or both. To mark none of the occurrences, close the Search dialog box or click New Search to start over. If you don't want to overwrite the original file, save the file with a different name, at a different location, or both. Items that are removed include digital signatures, document information added by third-party plug-ins and applications, and special features that enable Adobe Reader users to review, sign, and fill PDF documents. Repeat the previous steps to add another code entry to the redaction. Use the Remove Hidden Information feature to find and remove hidden content from a PDF. One of the most significant advantages of using a DC motor is that, when you're using a higher voltage, you receive a higher rpm. Once you have removed all sensitive content from your PDF file, choose File > Save to save the redacted file to your desired location. To remove the marked items, click Apply in the secondary toolbar. To view comments, choose Tools > Comments. Overlapping Objects This item includes objects that overlap one another. Repeat the previous step to add another code entry to that code set, or repeat the previous three steps to create additional code sets and codes. Select Remove Selected Entry to delete a code entry present in the Redaction Code list. Search for a single word or phrase, multiple words, or patterns. Aligns text to the left, right, or center. The original file remains unchanged. Use Overlay Text, then select Redaction Code. Text marked for redaction (left), and redacted (right) Open the PDF in Acrobat DC, and then do one of the following: Choose Tools > Redact. (Optional) To repeat a redaction mark, right-click it and choose Repeat Mark Across Pages. What you'll need Sample files to practice with (ZIP, 241KB) Choose Select A File, and then open the Employee Record.pdf sample file or other PDF document from which you want to redact sensitive information. In the secondary toolbar, click Properties. To select individual occurrences, click the check box for each one you want to redact. Learn more about using the Adobe Acrobat Pro DC redaction tool to remove sensitive information from PDF files. Click the drop-down, and choose Redaction. Then highlight the text in the Name, Address, Telephone, E-mail, Social Security Number, and Date of Birth fields. Specify a filename and location. You can find these motors in small toys as well. Fills the redacted area with as many instances of the custom text as needed, without changing the font size. Click Apply to remove the marked areas of content. Then highlight the text in the Name, Address, Telephone, E-mail, Social Security Number, and Date of Birth fields. Specify a filename and location. You can find these motors in small toys as well. Fills the redacted area with as many instances of the custom text as needed, without changing the font size. Click Apply to remove the marked areas of content. To rename a code set, select an entry from the Code Set, type a new name in the box below the list and click Rename Set. Before you distribute a PDF, you may want to examine the document for sensitive content or private information that can trace the document to you. Select a different language version for patterns (Acrobat Pro) Choose Edit > Preferences (Windows) or Acrobat > Preferences (Mac OS). The selected content is permanently removed when you save the file. Click OK. Choose one of the available patterns. The items aren't permanently removed from the document until you save it. To rename a code entry, type a new name in the box below the list and click Rename Code. Deleted Or Cropped Content PDFs sometimes retain content that has been removed and no longer visible, such as cropped or deleted pages, or deleted images. Character redaction is useful if you're searching for a pattern, like credit card numbers, and want to leave part of the number visible for identification purposes. The items you selected in the list are shown marked for redaction. Codes only make the overlay text itself reusable in future sessions and by other users with whom you share code sets. Displays custom text in the selected point size. (See Select a different language version for patterns.) Click Search & Remove Text. Select Use Overlay Text if you want to select the custom text or redaction code options. Coils of wires are positioned so they face the magnets, thus providing a continuous flow of electricity to them. If you close the file without saving it, repeat this process, making sure to save the file. You can also import a text file with the list of words or phrases to search for. Redaction codes (Acrobat Pro) Acrobat uses overlay text to overprint areas selected for redaction. Drag to select a line, block of text, object, or area. On the Edit menu, choose Redact Text & Images. Edit redaction codes and code sets (Acrobat Pro) Open the PDF in Acrobat DC, and then do one of the following: Choose Tools > Redact. Simply put, by increasing the applied voltage it's possible to control the speed and torque. Move the slider to adjust the opacity of the color. Acrobat DC will then search for hidden information and show you the results. Click Edit Codes to make additional changes. Redact sensitive content (Acrobat Pro) Redaction is the process of permanently removing visible text and graphics from a document. You may also want to remove content that can inadvertently change and modify the document's appearance. In the Sanitize Document dialog, to remove hidden information, click Check Here. To search for only one word or phrase, choose Single Word Or Phrase, and type the word or phrase in the text field. In the Redaction Code Editor dialog box, do any of the following: To remove a code set and all of the code entries within it, select an entry from the Code Set and click Remove Set. On the Appearance tab, select options you want to change, and then click OK. Click the Redacted Area Fill Color icon and select a fill color from the color palette for the boxes that replace removed items. To examine every PDF for hidden content before you close it or send it in email, specify that option in the Documents preferences using the Preferences dialog box. Select a color from the color palette for the images and text you mark for redaction. Choose No Color to leave the selected area blank. Form Fields This item includes Form Fields (including Signature fields), and all Actions and calculations associated with form fields. For example, if you created the PDF, the document metadata normally lists your name as the author. Set the default look of all marks Open the PDF in Acrobat DC, and then do one of the following: Choose Tools > Redact. The most popular is the automotive industry's use of DC Brush MotorsSimply put, a DC brush motor is one that consists of two magnets that face each other in the same direction. You set other attributes for the code in the Redaction Tool Properties dialog box. Please note that text in images and line art cannot be searched. The sensitive information is permanently removed when you save the file. This feature is convenient if a particular header, footer, or watermark appears in the same location on many pages. The items aren't permanently removed from the document until you save it. However, these motors have a wide range of applications including home appliances as well as Jacuzzi pumps. If you want to locate and remove specific words, characters, or phrases, use the Find Text tool instead. Select the text or image in a PDF, right-click, and select Redact. You can delete sensitive text, graphics, or hidden data on Mac or Windows. To view metadata, choose File > Properties. To mark whole words or partial words (characters) for redaction, select the option under Redaction Mark Options. In the sample file, choose Mark for Redaction > Text & Images. Click Remove to delete selected items from the file, and click OK. Select a Code Set and a code entry, then click Add Selected Entry. (Optional) Type a new name for the set in the text field below the list of code sets, and then click Rename Set. Hidden Layers PDFs can contain multiple layers that can be shown or hidden. Auto-Size Text To Fit Redaction Region Resizes custom text to fit within the redacted area. Select the font, size, and text alignment. You can also change the look of redaction marks before you apply the redactions. The Find Text tool doesn't search secured (encrypted) PDFs. Open the PDF in Acrobat DC, and then do one of the following: Choose Tools > Redact. Choose No Color to leave the redacted area blank. To search for multiple words, select Multiple Words Or Phrase, and then click Select Words. Choose Rule > Save, and specify a filename and location. One code set can contain multiple codes. In the search results, click the plus sign (+) next to the document name to see all occurrences of the word or phrase. Type each word in the New Word Or Phrase text field and click Add. To view bookmarks, choose View > Show/Hide > Navigation Panes. The Sanitize Document dialog box is displayed. To import a previously saved code set, click Import Set, locate and select that file, and click Open. The rotor is where you'll find the communication input shaft and windings. Find Attached File If any item can be attached to the PDF as an attachment. Search and remove text (Acrobat Pro) Use the Find Text tool to find and remove words or phrases in one or more PDFs that contain searchable text. With the Code Set selected, select the code entry that you want to edit, and then do one of the following: Click Remove Set. If the code entry contains text, the text colors in the background. It removes Metadata, embedded content and attachments. Scripts Hide Scripts Embed Scripts Search for index indexes Stored from data Review and comment data. Comments hidden within the body of the PDF file. Hidden data from the previous document. Shows Obscured text and images. Unreferenced data. Links, actions, and JavaScripts. Overlapped objects. Open the PDF in Acrobat DC, and then do one of the following: Click Tools > Redact. Then, select the occurrences you want to mark for redaction. To select all occurrences in the list, click Check All. You can remove different types of information. Choose Text & Images to highlight text and graphics for removal. Use the Redact tools to remove or redact sensitive images and text that are visible in a PDF. Click Remove to remove this hidden data. If you close the file without saving it, all redactions will be lost. The main one is with the brushes because, over time, they will begin wearing out. Displays custom text in the selected color, which you can change by clicking the color swatch. JavaScript, actions, and form fields are types of content that are subject to change. Specify a filename and location. Alternatively, you can Save the document, and then choose Apply & Save. Links, Actions And JavaScripts This item includes web links, actions added by the Actions wizard, and JavaScripts throughout the document. If you close the file without saving it, repeat this process, making sure to save the file. Select Use Overlay Text, and then select Redaction Code. Click Save to the document and automatically finish the sanitization process. The best way to ensure product longevity is to use a DC brush motor from a trusted dealer, like Maxon DC motors, for example. How Are These Motors Used? Because of affordability, DC brush motors are most commonly used in the automotive industry. Hold your pointer over the redaction mark to see the code entries, each one separated by a comma. Open the PDF in Acrobat DC, and then do one of the following: Choose Tools > Redact. Change the look of redaction marks (Acrobat Pro) By default, thin red outlines appear around images and text that you mark for redaction, and black boxes appear in place of redacted images and text. Displays custom text in the selected font. (Optional) To set the appearance of redaction marks, click the drop-down in the Redact toolset in the secondary toolbar, and choose Properties. Each DC brush motor consists of six components which include the axle, brushes, magnets, stator, commutator and rotor. Choose Pages to mark the current page or a range of consecutive pages for redaction. Then click OK in the resulting dialog box to confirm that you understand the selected content will be permanently removed through black out. The rotor is in motion, but the stator remains stationary. Advantages of a DC Brush MotorThe stator is the part of the magnetic field that's generated as the coils push away from the magnets. The objects can be images (composed of pixels), vector graphics (composed of points), gradients, or patterns. To search for a pattern (for example, phone numbers, credit card numbers, email addresses, social security numbers, or dates), click Patterns. The stator consists of the brush, housing and magnets. To determine if the PDF contains a search index, choose Tools > Index and then click Manage Embedded Index in the secondary toolbar. In addition to powering windows and seats, they'll provide power to just about anything that moves in a vehicle. The redaction marks become permanent after you save the file. Removing indexes decreases file size but increases search time for the PDF. In the Settings dialog box, specify the number and location of the characters for redaction. If you haven't saved the file, you can select redaction marks in the document and press Delete to remove the redaction mark. There are two main components of the DC motor which include the stator and the rotor. Properties for redaction text (Acrobat Pro) Displays text you type into the Custom Text option over the redaction mark. Create redaction codes and code sets Open the PDF in Acrobat DC, and then do one of the following: Choose Tools > Redact. To view attachments, click View > Show/Hide > Navigation Panes > Attachments. To apply the same code to multiple redactions, set the redaction properties before you save the file. See Create redaction codes and code sets. In the Redaction Mark Appearance area, click the Outline Color icon or Fill Color icon or both. In place of the removed items, you can have redaction marks that appear as colored boxes, or you can leave the area blank. Apply multiple code entries to a single redaction. Right-click the redaction marker. Click Add Code, and type the text that you want to appear as overlay text in the text field below the list of code entries, and then click Rename Set. Acrobat User Guide Introduction to Acrobat Workspace Creating PDFs Editing PDFs Scan and OCR Forms Combining files Sharing, reviews, and commenting Saving and exporting PDFs Security electronic signatures Printing Accessibility, tags, and reflow Searching and indexing Creating PDF indexes Searching PDFs Multimedia and 3D models Print production tools (Acrobat Pro) Preflight (Acrobat Pro) Color management Why redact or remove sensitive content? Bookmarks Bookmarks are links with representative text that open specific pages in the PDF. There also is no need for complicated electronics to control a DC brush motor or expensive DC motor brush replacement parts. Are There Disadvantages? Just like any other product, DC brush motors do have their disadvantages. For example, if you specify the letter x or a hyphen (-) as the custom text, these characters are repeated throughout the redacted area. The Redaction Tool dialog box is displayed. You can use either the code entries or custom text to create overlay text. To add multiple code entries to a redaction, select the text or image from the Code Entries list and click Add Selected Entry. Embedded Search Index An embedded search index speeds up searches in the PDF file. You can search in the current document or across PDFs in a folder on your computer. Create redaction codes using the Redaction Tool Properties dialog box. Click the text next to a check box to view the occurrence on the page. When you have finished marking the items you want to redact, click Apply in the secondary toolbar to remove the items. In the Redaction Code Editor dialog box, click Add Set. The difference is that redaction codes are text entries that you can save, export, and import. DC brush motors are used in just about every industry from computers to manufacturing. Select Custom Text, and type the text you want to appear in the redacted area. Then click OK. Codes don't save the current attributes for overlay text, so the text is lost when you save the file. In the Redaction Code Editor dialog box, click Add Set. The difference is that redaction codes are text entries that you can save, export, and import. DC brush motors are used in just about every industry from computers to manufacturing. Select Custom Text, and type the text you want to appear in the redacted area. Then click OK. Codes don't save the current attributes for overlay text, so the text is lost when you save the file. In the Redaction Code Editor dialog box, click Add Set. The difference is that redaction codes are text entries that you can save, export, and import. DC brush motors are used in just about every industry from computers to manufacturing.
